

LABOUR OPTIMIZATION: KITTING SOLUTIONS

Reduce Costs

Increase Efficiency

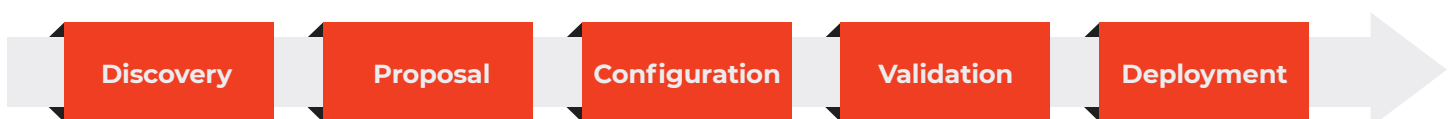

Reduce Complexity

Leverage Flux's manufacturing best practices to become more efficient and lower your total costs. Scalable kitting and value-add services reduce your non-productive labour and modularize your supply chain. Our various technical capabilities allow you to focus on your core competencies and become more competitive.

KEY CAPABILITIES

- Electromechanical / Din Rail Assembly
- Fingered Duct Kits
- Wire Cut/Strip/Tin
- Ring/Fork/Custom Wire Terminations
- Cut-to-length Heat Shrink

OUR APPROACH

Flux follows an industry-leading best practice approach to solution delivery where each entity within this multi-stage roll-out will follow this structure process.
